Enjoy more
every day

Made to work in any situation

Beltone Imagine hearing aids are designed to put you in control of your hearing—helping you feel more comfortable and involved in your social settings. Our technology continuously monitors every sound in your environment so that you can quickly and easily focus on the sounds that matter most. It also provides excellent clarity of speech, helping you stay fully engaged in your conversations.

Zero in on the conversation

Beltone Imagine hearing aids allow you to participate in conversations in any location. No matter how complex the environment, our Ultra Focus feature ensures you'll always have the best possible speech clarity. From crowded restaurants to outdoor events, you can easily zero in on the sounds directly in front of you by simply turning on the Ultra Focus program in the Beltone HearMax™ app.

Hear as nature
intended

Works with your unique ear shape

The Beltone Imagine RIE hearing aids paired with Microphone & Receiver-In-Ear (M&RIE) uses the unique shape and contours of your ears to provide sound tailored exactly to you.

This brings you premium sound quality, awareness of your surroundings and incredible speech recognition—ensuring you'll always feel confident and engaged in any conversation, even in difficult listening environments.
