Styletto AX

**About Signia**

Signia is one of the leading hearing aid brands in the world. Our goal is to enhance human performance through iconic innovations that shape the prescription audio category. We refuse to accept hearing loss as a limitation. It's not about correcting a loss, it's about gaining an edge. Not just performing, performing brilliantly. Not just hearing again, but hearing better than ever. Hearing every word, beat, and breath. With Signia, you can Be Brilliant.

The information in this document contains general descriptions of the technical options available, which do not always have to be present in individual cases and are subject to change without prior notice.

Styletto AX

## Brilliant hearing never looked so good

Our new Styletto AX rechargeable hearing aids look as amazing as they sound. Their award-winning hearwear design<sup>1</sup> is smaller than before for an even more elegant and discreet fit behind your ears. Built on our leading-edge Augmented Xperience audiology platform, Styletto AX give you the outstanding speech clarity<sup>2</sup> you need with the hearing aid features you want. An overwhelming 95% of participants in a recent study reported being satisfied with Augmented Xperience (AX).<sup>2</sup>

With Styletto AX from Signia, you can Be Brilliant.

Augmented Xperience

Outstanding Speech Clarity

## Never miss a word

Hearing isn't always easy. A big group of people talking at the same time, softly spoken talkers, too much background noise... Sometimes sounds blend together making it impossible to focus on what you want to hear.

Augmented Xperience (AX) changes the way you hear the world. It uses our revolutionary Augmented Focus™ technology to split the sound of speech from surrounding sounds, process them separately and create a clear contrast. It then recombines them to give you outstanding speech clarity in a fully immersive environment. No more straining to discern speech from background noise.

As a result, 100% of participants in a recent study reported excellent speech understanding in their home environment.<sup>2</sup> Signia AX wearers also enjoy more than 25% better speech understanding in noise than with their previous hearing aids.<sup>2</sup>

Signia AX is even proven to perform better than normal hearing in a tested party scenario.<sup>3</sup>

Award Winning Design

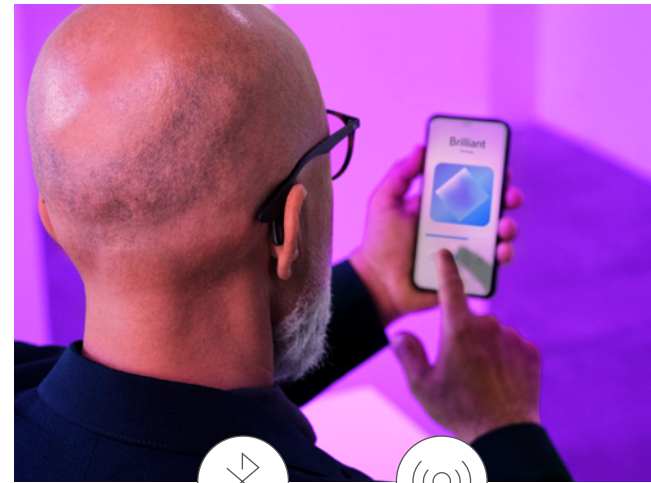

Recharge on-the-go

## Wireless charging with Qi technology

You can recharge your Styletto AX hearing aids at home or on-the-go for up to 17 hours of use per charge.<sup>4</sup> The pocket-sized charging case's Qi wireless technology enables you to simply place the charger on a charging pad instead of having to plug it into the mains. Wherever you're going, Styletto AX goes with you. And goes and goes – the charging case gives you an astounding 4 days<sup>4</sup> of autonomy without needing to charge the case.

Portable Charger

Android & iPhone Connectivity

Automatic Situation Detection

## Android & iPhone connectivity

Styletto AX also give you state-of-the-art Bluetooth connectivity for Android<sup>5</sup> and iOS devices. So you can easily stream your phone calls, music and TV audio straight to your award-winning hearwear in high-quality digital sound. You can also connect your Styletto AX to the Signia app, which features groundbreaking artificial intelligence (AI) via the Signia Assistant.

AI Assistant

## Signia Assistant

Inspired by the way the human brain's neural network solves challenges, the Signia Assistant offers immediate support whenever you need to adjust any settings.

The live deep neural network AI that drives the Signia Assistant marks a revolution in hearing care. It is a living system that continuously learns about your individual needs in specific situations. As a result, 93% of hearing aid wearers regard the Signia Assistant as a meaningful innovation that raises their satisfaction with their hearing aids in difficult listening situations. An overwhelming 87% would choose hearing aids with such an AI digital assistant.<sup>6</sup>

Compatible with Android and iOS. The app is free of charge.
