Radiant, Clearly Brilliant

Clear, natural sound

Hear the moments that matter. With Radiant, you'll appreciate the high-performance systems that keep speech clear and reduce background noise, while virtually eliminating feedback.*

Well-balanced music

Tune in to your favorite songs with **SmartMusic Pro**. This unique program enhances the sound quality of music, so you can enjoy a better listening experience.*

Personalized just for you

Get a better fit, right from the start. Based on your needs, your Hearing Care Provider can create a personalized hearing experience that works for you.

Ease into your new hearing aids

Radiant's **Adaptation Manager** automatically adjusts your settings over a period of time until you're comfortable with the volume and clarity you need.

Hands-free communication

Conversations on your iPhone and iPad® just got more convenient — and comfortable. You can both listen and speak to the caller without the need to hold the phone in your hand.**

Hearing Solutions Powered by Innovation

Noises can come from any direction, at any time, creating a distracting listening experience for hearing aid users. That's why the Radiant family of hearing aids has incorporated Sonic's advanced technologies that respond quickly to find, filter and fine-tune sounds arising from anywhere in your surroundings. Intelligent, integrated systems work together so you can hear more easily.*

Find

Adaptive directional microphones pinpoint speech to keep conversations in focus.

Filter

Automatic noise reduction technologies filter out background sounds so you can enjoy a more comfortable listening experience.

Fine-Tune

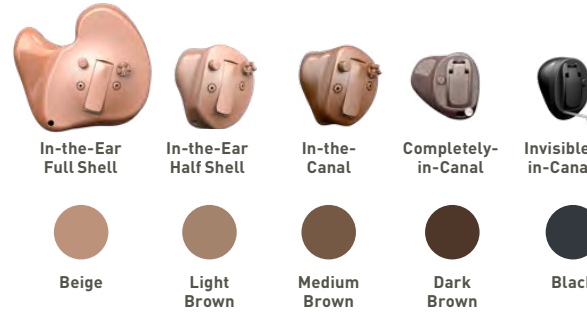

A high-resolution amplification system enhances speech and minimizes ongoing distractions, making it easier for you to hear.

*Not all features and options are available on all technology levels or models. Ask your Hearing Care Provider for details.

** Requires 2.4 GHz Bluetooth Low Energy and Near-field Magnetic Induction Available with select iPhone and iPad models.

Radiant Style

Radiant is available in five technology levels and a variety of custom styles and colors to match skin and hair tones. Ask your Hearing Care Provider which is best for you.

Take Control with the SoundLink 2 App*

- Adjust volume, change your listening program, monitor battery charge, and more!
- Equalize sound streamed from your phone to your hearing aids with the streaming equalizer.**

* Requires 2.4 GHz Bluetooth Low Energy and Near-field Magnetic Induction.

** Radiant is a Made for iPhone®, iPad®, iPod® hearing aid. Direct audio streaming for Android devices requires Android 10 or later, Bluetooth 5.0 and an implementation of Audio Streaming for Hearing Aids (ASHA) on the Android device. For information on compatibility, please visit www.sonici.com/compatibility.

Essential Wireless Accessories*

SoundClip-A

Listen in stereo from Bluetooth® compatible devices or use as a remote microphone, remote control or wireless headset for mobile phones.

RC-A Remote Control

Adjust volume or programs with a single click.

TV-A Adapter

Transmit TV audio directly to your Radiant hearing aids.

Remote Fitting

Get hearing aid adjustments from the comfort of home. Radiant hearing aids with 2.4 GHz Bluetooth Low Energy allow virtual appointments with your Hearing Care Provider using Sonic's app for Remote Fitting.
