HOW DO YOU WANT TO **HEAR?**

Many hearing aids can improve your hearing. An exceptional one gives you true to life sound.

The new WIDEX DREAM™ hearing aid from Widex does exactly that.

If you're an experienced hearing aid wearer, you will hear the difference right away. Sounds will seem richer, more detailed and more well-rounded. You'll derive more pleasure from the world of sound around you.

If WIDEX DREAM™ is your first hearing aid, get ready to start hearing many of the sounds you've been missing, the way you remember them.

BECAUSE
YOU DESERVE
TRUE TO LIFE
SOUND

“The movies used to be the last place I’d pick for a night out. What’s the point in seeing something on the big screen when you can’t hear it the way it’s supposed to be heard? It’s completely different with WIDEX DREAM, the sound comes through crystal clear with no distortion and I can even enjoy the loud parts! A trip to the movies is a memorable experience again!”

WIDEX DREAM™ allows more sound in than any other hearing aid. That means you’ll hear more details of the world around you, and in a way that’s as true to life as technology allows.

I’VE ALWAYS **DREAMED** OF
GOING TO **A MOVIE** AND
NOT JUST SEEING IT, BUT
HEARING IT, TOO

MORE SOUND

BECAUSE **SPEECH UNDERSTANDING** SHOULD NEVER BE COMPROMISED

“Taking my granddaughter out used to be a little embarrassing – she’d get tired of repeating herself and I’d often end up avoiding conversations. Now nobody can shut us up!”

Thanks to unique technology that preserves the human voice, WIDEX DREAM™ provides the most natural, true to life sound possible. So you can enjoy conversations once more, even in the noisiest of social situations.

I’VE ALWAYS **DREAMED** OF
GOING TO **THE GAME** AND
ACTUALLY **HEARING** THE
ROAR OF **THE CROWD**
